UTOBOT[®]
INDIA
Empowering EV Ecosystem

By Autobot India

About Us

MY EV SERVICE™ is India's 1st multi-brand EV service chain, created to solve one of the biggest challenges in India's EV ecosystem – **reliable and accessible EV servicing**.

Backed by **Autobot India's** expertise, **MY EV SERVICE™** empowers entrepreneurs to build their own profitable EV service businesses while bridging the gap for EV owners, fleets, and brands across India.

Our Vision

To make India an **EV Nation by 2030** by building a complete, sustainable, and future-ready **e-mobility ecosystem**.

By Autobot India

Empowering EV Ecosystem

Our Mission

Empowering Entrepreneurs

Enable 1,000+ franchise partners to successfully launch and operate EV service centres across India.

Building Skilled Workforce

Train and certify 100,000+ EV engineers and technicians through Autobot Academy.

Strengthening Infrastructure

Bridge the EV service and spare parts gap with MY EV SERVICE and EV Spare Hub.

Driving Accessibility

Standardize EV servicing for 2W, 3W, 4W, and LCVs to make aftersales care transparent, affordable, and trustworthy.

Sustainable Growth

Align with India's green mobility goals, contributing to reducing carbon emissions and creating future-proof businesses.

The future of e-mobility in India

Demand for small format e-mobility could rise to about 15 million+ units by fiscal year 2030.

Demand for electric two and three wheelers in India

FY21	PERCENTAGE OF TOTAL SALES THAT ARE FOR ELECTRIC VEHICLES	
	240 - 280	4-5
FY25	4,500 - 5,500	175-125
FY30	8,200-9,200	500-600

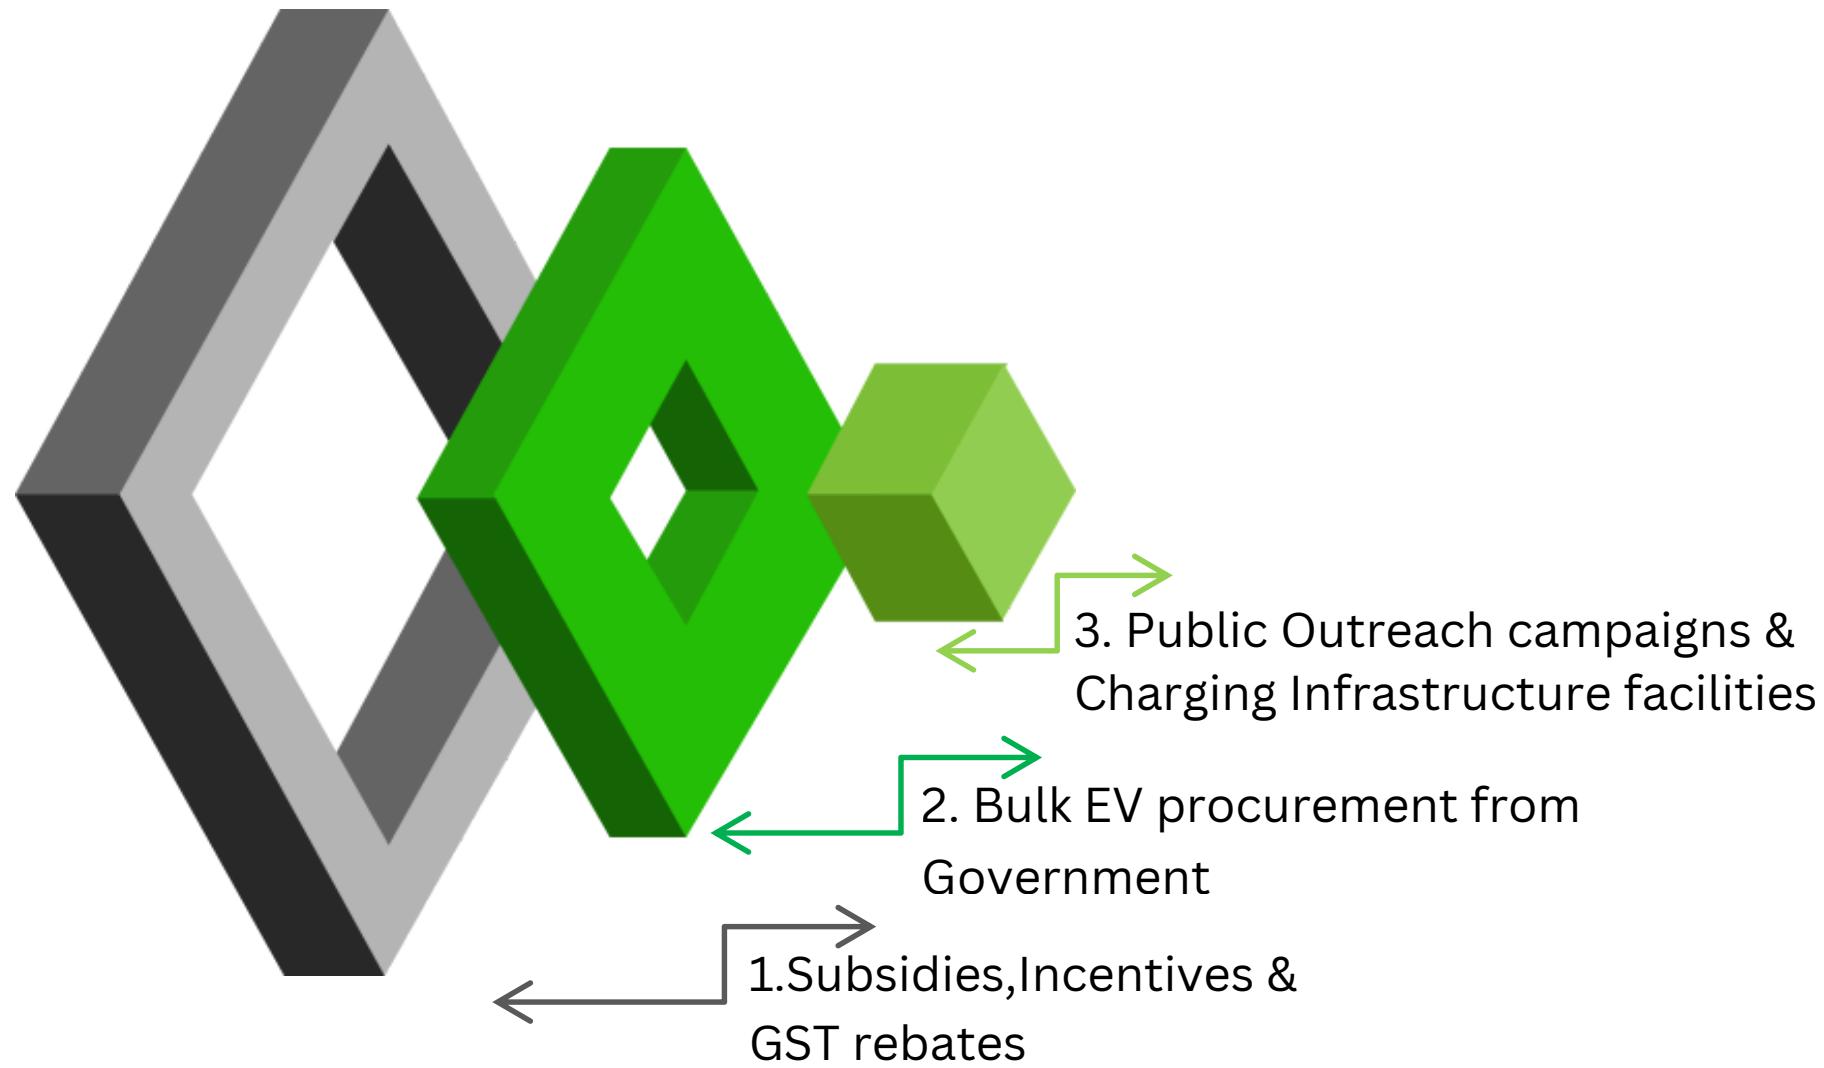

A NUMBER OF USE CASE WILL DRIVE GROWTH IN SHARED MOBILITY FOR SMALLFORMAT VEHICLES

Electric Bike	2025 (CAGR)	2025 (CAGR)	Electric Auto
E-commerce/ small format	14-16%		Goods mobility 14-16%
Food delivery	15-20%		Passenger mobility 40-45%
Grocery delivery	25-30%		
Self-drive rentals	100%		
Ride hailing	40-45%		

Government encourages a shift to electric vehicles

Key Initiatives by the Government to push the EV revolution in India

PM E-DRIVE Scheme (2024)	Delhi EV Policy 2.0	Maharashtra EV Policy (2025–2030)
<p>Budget: ₹109 billion (~\$1.3 billion)</p> <p>Incentives:</p> <ul style="list-style-type: none">Subsidies for e-2Ws, e-3Ws, e-ambulances, and e-trucks.₹43.91 billion allocated for 14,028 electric buses.Focus on enhancing the charging infrastructure and promoting new technologies.	<p>Goals</p> <ul style="list-style-type: none">Ban the sale of ICE two-wheelers below 150cc from April 1, 2027.Limit households to owning only two fossil fuel cars.Achieve 30% EV market share by 2030.	<p>Targets:</p> <ul style="list-style-type: none">40% of two-wheeler sales to be electric.30% of four-wheeler sales to be electric.15% of passenger buses to be electric. <p>Incentives:</p> <ul style="list-style-type: none">Subsidies, toll waivers, and tax benefits.Investment of ₹1,993 crore over five years.

Market Potential

India has a ₹1,000+ Cr
service market potential from
existing EV 2Ws alone.

Only 30% of the market
is currently serviceable through
OEM and brand dealerships and
service centres.

EV 2Ws cross 10 million units
by 2030, this Total Available
Market (TAM) could grow
5x to ₹5,000–₹6,000 Cr annually.

Huge opportunity
for standardized, multi-brand
service networks like
MY EV SERVICE to scale early.

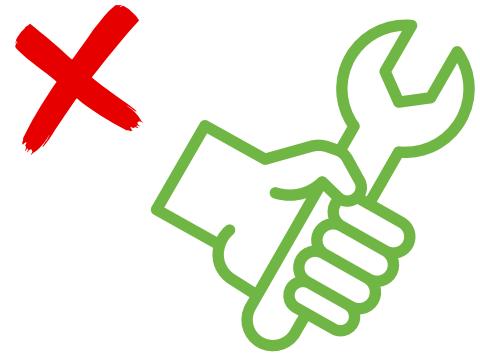

The Real Problem in Today's EV Service Ecosystem

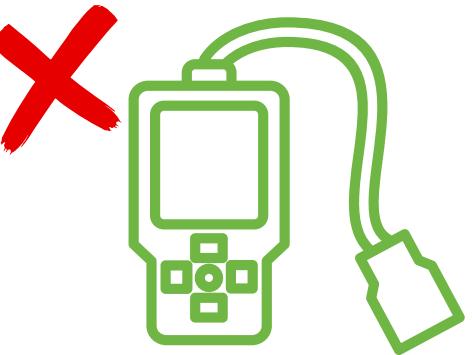

Shortage of trained EV technicians nationwide

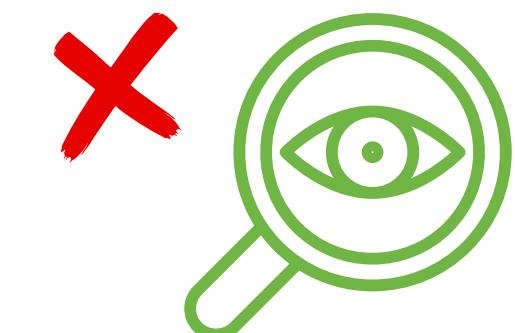

No organized EV service chain nationwide

Untrained roadside mechanics

Lack of diagnostics tools for EV-specific faults

Zero visibility on service quality or uptime

No standard operating practices (SOPs)

The Challenge We Solve

-  Scarcity of trained EV technicians
-  Unorganized spare parts supply chain
-  Lack of standardized EV service centres
-  Limited business opportunities in EV aftersales

Our Solution

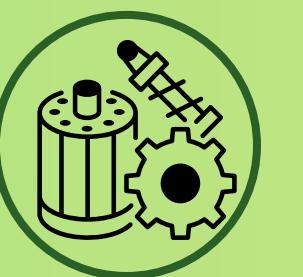

MY EV SERVICE™, a complete **franchise model** with training, branding, inventory, billing systems, and ongoing support – enabling partners to launch in just 90 days.
